

ECFA Documentary Award 2023

Actually Literally Arm in Arm

von Natalie Fischer

Growing up in these complicated times is not easy. Young people are constantly confronted with expectations about their bodies, their behaviour and their relationships.

Thanks to the film we want to award, we met 5 strong characters from Berlin.

Through sensitive and close observation we get an insight into their world. It seems to be an unspectacular life, but through tenderness and openness we get an impression of extraordinary ordinariness.

The filmmaker has archived an intimate environment that allows us to experience their special bond and friendship, which is the film's most powerful tool. That is why we believe that this film meets its protagonists and its young audience at eye level.

Therefore, we award the ECFA Documentary Award to ACTUALLY LITERALLY ARM IN ARM by Natalie Fischer.
